Reader offers

Professional Garden Design by Essence

Helen Westendorp, garden designer and founder of Essence, is offering *Gloucestershire Preview* readers a very tempting reason to tackle their gardens this Spring: 50% off the first £600 of garden design fees for any projects confirmed between 1 March and 1 September 2009.

Essence specialises in the planning and planting of formal and semi-formal gardens, with expertise ranging from parterre design to organic kitchen gardens.

Helen believes that one of the keys to successful garden design is in asking you, the client, all of the right questions to make sure that the brief is exactly right. The quality of the initial consultation is therefore critical. Helen is offering readers a free initial consultation and soil analysis (worth £130) during March and April 2009.

To take advantage of either of these offers, please contact Helen on 01452 770680, quoting 'Preview', or visit essencegardens.co.uk for more details and examples of Essence's portfolio.
